

Joint / Spliff

Klassische Konditionie

Stim

Inventor God

Year ~0

Releases serotonin and/or dopamine, the unfiltered smoke is bad for the lungs, the arteries etc. It is currently an illegal self-medication. From the medical point of view without consulting a doctor not the best idea. Because of the sedation the processing of consolidating experienced events is skipped, which will lead into a psychosis and reduces the resilience of the individual.

Use Cases

Can have a pain-relieving effect. Consumers show more ignorance that can help in some stress situations. The person focus more on the non-verbal communication.

Beer

Inventor Satan

Year 50 v.Chr

Helps to reduce massive out of is drunk then feeling and ta than usual. statistics.

ons, dopamine he person who is a superior **greater risks** he accident

Use Cases

In the medium / long term, the NeoCortex destroyed a **lobotomy in small portions**
