Conspiracy Theory

Inventor ??? Year ???
In the so-called "Chemtrail" conspiracy, is "offered" by Google, as soon as one falls out of the standard consumer behavior. In fact it's only a technical test of a boiling plane. In order to be able to shift the weight of the aeroplane, it has pumps and water tanks. "Switching on the toxic sprays" is simply the transition into an air layer (at Mach 1) with more humidity.

Inventor Satan Year ~0
The usual rhetorical automatism would be "Everyone has his price" even Judges are for sale. We think "Everyone" is a rumor, but many young people do not realize, that their wages actually are paid by Satan (for example from the Army). Not informed by the company, that many people had to die in the name of the employer, and if the young employee would ask relevant questions the company would fire him.

Like a push: to hug, pet and care for
Clinical use: as a coping strategy, e.g. you can buy a shy cat for a scared child, which then helps the child to analyze his fears without focussing directly on his own fears, that then might would lead to a thought blockade & avoidance behavior instead of the things that caused the fear and to analyze them objectively

Physical violence against children is prohibited by law but in Switzerland but unfortunately still very common.
