Inventor: xxxx
Year: ~xxxx
 People often know, that if they say the direct opposite of the things they should not have done. And if a kid does that too, then it is maybe an introjection of the behaviour parents show. Often people do like they are saints and just wants to play the sneak on the forbidden tree to "train the kids". Yes throwing with apples (in metaphysical manner) maybe makes sometimes sense, but not if the resulting actions are then abused to impose the will upon kids. then its just satan masked as a "saint".

Use Cases

Saying the complete opposite of the things done will give the person a better start but then after enough data is known about this person it's quite easy to link the dots to a complete image.

Stick (German: Peitsche)

 The brain automatically tells: pain (injuries) is bad, so the brain will try to save the pony from situations where it feels pain again, so the scene will be burned in the brain and in the future automatically avoided (avoidance behavior). Physical violence against children is prohibited by law but in Switzerland but unfortunately still very common.

Use Cases

Behavioural "Sciences" = to boss people around instead of educating them for "efficiency". The resulting late consequences are then to be played by the community if they can be fixed at all... PTSD

Porn

Inventor God, instrumentalized by Satan

Since reproduction (and therefore also to have sex) was vital for the preservation of the species. This early part of the brain has much influence to an individual. If your NeoCortex does not know about this vulnerability one can easily abuse it for example to sell overpriced cars by simply putting a half naked women on top of car: The **limbic system**, is responsible for processing emotions and instinctive behavior; see Sexualitätsdispositiv (Michael Foucault)

Use Cases

Drives people to do things they would normally not do. If one is aware of vulnerability, a healthy and consensual sexual life is even good for the Endocrine System

 Nach einem traumatischen Erlebnis wie einem Mord, einer Vergewaltigung, einer Just Primae Noctis Vergewaltigung nach dem man Marc nach footprinting / enumeration bei ABB Altstetten mit einem Computerkurs angelockt hat kann sehr einfach ein Suizidversuch induziert werden, bzw die Täter nutzen das um modernste Cyber-War Technologie zu tarnen **Workaround:** nur noch **Plastik-Messer** in der Wohnung / im Haus haben.

Skeleton in the cupboard

 Many city council have a Gypsy cemetery in the cupboard (metaphor) or the state is responsible for the death of many kids directly or indirectly. So the CIA (MindControl since 1950s #MKULTRA Experiments) owned many jurisdictions. Often events and deeds which can not be corrected or expiated (deadlock), e.g. Murder or rape, where the victim then died, run Suicide or Amok... CH: #Verdingkinder DE: #Schwabenkinder They let the people kill someone and helps them to hide that murderer, then they blackmail them

Use Cases

One can subvert whole cities with this "trick" consequences: Tarot Card "The Tower" or many of them: Revision 2015 - PC Demo - Secret Society <https://www.youtube.com/watch?v=VU3qbXoZw&t=2m45s>

Money

 The usual rhetorical automatism would be "Everyone has his price" even judges are for sale. We think "Everyone" is a rumor but many young people do not realize, that their wages actually are paid by Satan (for example from the Army). Not informed by the company, that many people had to die in the name of the employer, and if the young employee would ask relevant questions the company would fire him.

Use Cases

Many rich people can easily hide murder and rape with enough money. They simply buy the judge that wears a price tag instead of moral and justice

TraumaBased Mind Control

 They burn a trauma into the victim's psyche, in order to be able to reactivate the trauma (reVictimizing ↔ Power ⇒ Power abuse). In Rombachall 11/13 there are so far 7 killings by one of the owners, so he ordered someone else to make a bullet hole to distract from the relevant scenes that would bring the assassin into jail. Step two seems to be, that the Killer bought the judge.

Use Cases

if someone would find the "surveillance" infrastructure, and could proof that this surveillance does not just listen, the owner could not deny his complicity anymore. revictimizing with simple gun shot sound
